I am passionate and creative UI/UX designer with experience in freelance projects. Enthusiastic about visual design, creativity, and art, and eager to bring user-centric designs to life.

WORK EXPERIENCE

Redux Solutions
Role: UI UX Designer

July 2023 - July 2024

Joined Redux Solutions in 2023, contributing to multiple projects to enhance user experience. My role involved creating intuitive and visually appealing designs to meet client needs.

DESIGN EXPERIENCE

UI UX | Ghar Ho Toh Aisa - Real Estate
Client Project

Led the complete redesign of 'Ghar Ho Toh Aisa,' transforming their outdated real estate website into a modern, user-friendly platform. Introduced new features such as advanced property search filters, interactive map, and a responsive design to enhance user engagement and improve overall functionality.

UI UX | Dialable - Business Directory
Client Project

Designed an accessible website for 'Dialable', a business directory platform catering for disabled users. The project included creating interactive features such as a job portal, marketplace, and free listing/advertising options etc. Focused on enhancing user experience with accessibility in mind and usability for all users.

UI Design | Muse Gallery - Mobile App
Personal Project

Designed an intuitive museum app featuring a nearby museums locator, an explore page with workshops, events, collections, and exhibits, a detailed calendar page, and a scan and shop feature. Focused on enhancing user experience through seamless navigation and interactive elements.
